RE: DRAFT Plan

Just a reminder that we've got a meeting Monday, April 21 at 7 pm at the Amsterdam Fire Department.

At the meeting, we will be talking about the FIRST, VERY ROUGH DRAFT of the Amsterdam/Churchill Community Plan. As you can see, there's a ton of holes in it, not the least of which is a missing Chapter 2 (Background Information). This shows, however, the direction we're heading with the plan and how these things get written. We need to have a good discussion of this at our next meeting. It isn't long, so please read it over and come prepared to discuss.

Keep in mind that the draft policies are all based on the three community events we've had, along with the discussion we've had at our committee meeting.

Also at the meeting, I will bring maps of the core area so we can continue discussing possible boundaries for our downtown core (which may end up being the entirety of the planning area if the rural landowners are not involved).

Thanks for everyone's work and I'll see you next week.
